Film Production Guidelines

Welcome to the City of Los Angeles, Department of Recreation and Parks (Department). In our partnership to protect the environmental integrity of our parks the Park Film Office is providing guidelines to ensure a safe and successful film shoot. Please review and provide copies of these guidelines to the appropriate responsible persons. Thank you for the continuous use of our parkland.

- Vehicles and/or heavy equipment are not allowed on turf areas unless prior approval is given by the Park Film Office.
- Production companies must provide their own restroom and trash receptacles. The City dumpsters and trash cans cannot be used so all self-generated trash has to be removed and disposed of off-site.
- Film permits do not provide exclusive use of a park or recreation area.
- Service roads, parking lot driveway access, handicap or electric vehicle designated parking stalls may not be blocked or restricted. Emergency vehicle access lanes must be maintained in parking lots and park streets at all times.
- Due to underground plastic irrigation lines and trees having shallow root systems, staking or drilling into turf, rocks, trees or asphalted areas is not permissible unless prior approval is given by the Park Film Office. This approval will be noted in the permitted guidelines.
- Locked park gates can only be accessed by a Park Film Office Monitor. Security of open gates must be provided by the permitted company. Any equipment that is permitted to stay overnight must be guarded by the permitted company's security group.
- Alterations to natural or manmade surroundings or content of the park are not permissible unless documented in these specific guidelines. The permit holder is financially responsible for all remediation should there be any damage or unauthorized alteration to Department property. The remediation and cost of will be determined by the Park Film Office.
- A Park Film Office Monitor(s) may be assigned to the permitted location. Their job is to ensure guidelines are followed, liaison between park patrons, other City employees and a communication link between Permitee and the Park Film Office for any additional needs or authorizations. When the Park Film Office is closed the Park Film Monitor has the authority and responsibility to modify these guidelines within the parameters given to them by their supervisor. The Park Film Monitor has access 24/7 to contact their supervisors if needed. The Permitee will be required to adhere to the instructions, restrictions and requests given by the Park Film Monitor.

It is the company's responsibility to distribute these guidelines to all crew members. These are general guidelines for the area and are subject to change depending on your request.
10/29/2010

NOT A PERMIT

- Smoking is prohibited on all Department properties. An exception has been made for permitted film production companies to smoke in areas that are designated by the Fire Safety Officer or Park Film Monitor. If a Fire Safety Officer or Park Film Monitor is not assigned to the Permitee there will be no smoking with the exception of an actor smoking while performing or as part of the scene.
- Alterations will be considered for the exterior grounds only and must be coordinated with this office's Supervisor. No consideration will be given for alteration to cave interior.
- Special effects (explosions, etc) may be considered on a case-by-case basis and for exterior use only. Any special effects that may cause damage to the interior/exterior of cave integrity are not permitted.
- Introduction of large trucks that may have the potential to disturb the rock formations by vibration, weight, or otherwise must be discussed with park personnel for consideration. Generators and all vehicles must be 75ft away from caves.
- Company must maintain a 20ft unobstructed emergency access lane at all times in the parking lot, along the road leading up to the caves and around the cave itself.
- Bolting, drilling or nailing into the cave walls is not permitted. Existing bolts, nails and holes may **not** be used for mounting props or otherwise.
- Altering of chaparral vegetation may be considered at park's discretion, please inquire.
- Climbing or use of ropes (or similar) on rock face above caves is prohibited due to shifting. NO EXCEPTIONS.
- No open flame cooking allowed.
- Company is responsible for clean-up and off-site disposal of all self generated trash, which may include trash along the dirt road and hillsides.
- Company must provide restroom facility from beginning to end of the reservation period.
- Due to the area being a mountain fire district, "Red Flag" days will be designated as necessary by LAFD which may impose more infringing fire safety guidelines. Inquire with Fire Department.
- Any pre-approved changes or accidental damages must be promptly restored to original or better conditions.
- Large trucks may not enter/exit park between the hours of 11PM-7AM, including catering trucks. NO EXCEPTIONS.
- All vehicles must be parked in lower dirt parking lot or at caves (limited). All vehicles must remain at least 5 feet away from existing chaparral. **No street parking.**
- Must leave at least 10 parking spaces in southern part of lower dirt parking lot available for park patron use.
- OK to have flame bar campfire with FD present.
- OK to cater on grass at Bronson Park.
- OK to set up tents, no staking, tables and chairs.
